Diving for Starfish Cherie Burns,2018-03-20 Both a history of fine jewelry coming out of Paris in the Golden Age and a tour through the secretive world of high-end, privately-sold jewelry, Diving for Starfish is a stylish detective story with a

glittering piece of jewelry at its heart. In the mid 1930s, in the workroom of the famous Parisian jeweler Boivin, a young jewelry designer named Juliette Moutard created one of the most coveted pieces of jewelry in the world—the famous starfish pin—still sought after today by aficionados of fine jewelry. The starfish, created out of gold and encrusted with 71 cabochon rubies and 241 small amethysts, was distinctive because its five rays were articulated, meaning that they could curl and conform to the bustline or shoulder of the women who wore it. The House of Boivin made three of them. Two of the women who bought and wore the starfish were Claudette Colbert and Millicent Rogers. Obsessed with the pin after she saw it in the private showroom of a Manhattan jewelry merchant, Cherie Burns set off on a journey to find out all she could about the elusive pins and the women who owned them. Her search took her around the world to Paris, London, New York, and Hollywood. *Diving for Starfish* is the story of these marvelous pieces of jewelry and the equally dazzling women who loved them.

Footsteps on the Ice Stuart D. Paine,2007-06-18 In 1933 Antarctica was essentially unexplored. Admiral Richard Byrd launched his Second Expedition to chart the southernmost continent, primarily relying on the muscle power of dog teams and their drivers who skied or ran beside the loaded sledges as they traveled. The life-threatening challenges of moving glaciers, invisible crevasses, and horrific storms compounded the difficulties of isolation, darkness, and the unimaginable cold that defined the men's lives. Stuart Paine was a dog driver, radio operator, and navigator on the fifty-six-man expedition, the bold and complex venture that is now famous for Byrd's dramatic rescue from Bolling Advance Weather Base located 115 miles inland. Paine's diaries represent the only published contemporary account written by a member of the Second Expedition. They reveal a behind-the-scenes look at the contentiousness surrounding the planned winter rescue of Byrd and offer unprecedented insights into the expedition's internal dynamics. Equally riveting is Paine's breathtaking narrative of the fall and summer field operations as the field parties depended on their own resources in the face of interminable uncertainty and peril. Undertaking the longest and most hazardous sledging journey of the expedition, Paine guided the first American party from the edge of the Ross Sea more than seven hundred miles up the Ross Ice Shelf and the massive Thorne (Scott) Glacier to approach the South Pole. He and two other men skied more than fourteen hundred miles in eighty-eight days to explore and map part of Antarctica for the first time. *Footsteps on the Ice* reveals the daily struggles, extreme personalities, and the

matter-of-fact bravery of early explorers who are now fading into history. Detailing the men's frustrations, annoyances, and questioning of their leader, Paine's entries provide rare insight into how Byrd conducted his expeditions. Paine exposes the stresses of living under the snow in Little America during the four-month-long winter night, trapped in dim, crowded huts and black tunnels, while the men uneasily mulled over their leader's isolation at Advance Base. The fates of Paine's dogs, which provided some of his most difficult and rewarding experiences, are also described—his relationship with Jack, his lead dog, is an entrancing story in itself. Featuring previously unpublished photographs and illustrations, *Footsteps on the Ice* documents the period in Antarctic exploration that bridged the "heroic era" and the modern age of mechanized travel. Depicting almost incomprehensible mental and physical duress and unhesitating courage, Paine's tale is one of the most compelling stories in polar history, surpassing other accounts with its immediacy and adventure as it captures the majesty and mystery of the untouched Antarctic.

Robert Ludlum's The Arctic Event James Cobb, Robert Ludlum, 2010-02-25 An ancient bomber conceals a devastating secret - a stunning Covert-One thriller from the master storyteller. On a desolate island deep within the Arctic, a scientific expedition photographs the wreckage of a bomber. It seems to be a relic from the Cold War - but a handful of insiders know that it is a Soviet Air Force biological warfare platform, still armed with weaponised anthrax. Covert-One's Lt. Col. Jon Smith leads a team to secure the site. But on the island they find themselves confronted with a traitor from within their ranks. Gradually they become aware that the ancient bomber conceals something else: a secret so deadly that it could trigger a Third World War...

Monolithic Undertow Harry Sword, 2021-02-04 'An inspired and intuitive navigation of the drone continuum . . . with a compass firmly set to new and enlightening psychedelic truths' BECK Monolithic Undertow alights a crooked path across musical, religious and subcultural frontiers. It traces the line from ancient traditions to the modern underground, navigating archaeoacoustics, ringing feedback, chest plate sub-bass, avant-garde eccentricity, sound weaponry and fervent spiritualism. From Neolithic beginnings to bawdy medieval troubadours, Sufi mystics to Indian raga masters, cone shattering dubwise bass, Hawkwind's Ladbroke Grove to the outer reaches of Faust and Ash Ra Temple; the hash-fueled fug of The Theatre of Eternal Music to the cough syrup reverse hardcore of Melvins, seedy VHS hinterland of Electric Wizard, ritual amp worship of Earth and Sunn O))) and the many touch points in between, Monolithic Undertow explores the power of the drone - an audio carrier vessel capable of evoking womb like warmth or cavernous dread alike. In 1977 Sniffin' Glue verbalised the musical zeitgeist with their infamous 'this is a chord; this is another; now form a band' illustration. The drone requires neither chord nor band, representing - via its infinite pliability and accessibility - the ultimate folk music: a potent audio tool of personal liberation. Immersion in hypnotic and repetitive sounds allows us to step outside of ourselves, be it chant, a 120dB beasting from Sunn O))), standing front of the system as Jah Shaka drops a fresh dub or going full headphone

immersion with Hawkwind. These experiences are akin to an audio portal - a sound Tardis to silence the hum and fizz of the unceasing inner voice. The drone exists outside of us, but also - paradoxically - within us all; an aural expression of a universal hum we can only hope to fleetingly channel...
