Weapons of the US Special Operations Command Chris McNab,2019-07-25 The units and formations of the US Special Operations Command (SOCOM) have privileged access to the finest weaponry in the world's arsenal. Whether Army, Navy, Air Force, or Marines, the SOCOM troops select weapons that match their mission requirements, but which also sit at the cutting edge of combat technology. This means that, while SOCOM troops frequently use standard-issue weaponry, they also adopt many specialist pieces of kit that are not so accessible to the broader armed services, including sniper rifles, battle rifles, and machine guns, as well as high-tech tactical accessories used to transform standard weaponry into something exceptional. Assessing the technology and capabilities of these combat weapons, as well as how they have been used in modern combat, this fully illustrated study lifts the veil on some of the most distinctive hand-held weapon systems of US special operations forces since 1987.

His beloved daughter gets an otherwise unaffordable survival suit to protect her from radioactive fall-out and all George has to do is sign a document admitting that, as a passive citizen who did nothing to stop it, he has a degree of guilt for any nuclear war that breaks out. George signs on the dotted line. And then the unthinkable

happens. The world and everyone in it (survival suit or not) is destroyed in a nuclear Armageddon - except for George and five others who must now face prosecution from the great mass of humanity who will now never be born.
